

How to Replace the Net on a Basketball Hoop

Replacing the net on a basketball hoop may seem tricky, but follow these simple steps and find out how easy it really is.

Written By: Kevin A Walker

INTRODUCTION

If you have an old basketball net that needs replacing, check out this guide!

PARTS:

- [Basketball Net](#) (1)
-

Step 1 — Net

- Set up a ladder below the basketball rim.
 - ⚠ Make sure the ladder is steady and placed on a level surface.

Step 2

- Loop the first net loop through the basketball rim.
- Push the net through each loop on the basketball rim.
- Pull the net loop down and spread the rope across the rim coil as shown
- Pull the net tightly to the rim.

Step 3

- Using the same technique from step 2, loop the remaining net loops around the rim.

Step 4

- Test the net and remove any wrinkles by pulling down on the bottom of the net.

Step 5

- Step down from the ladder and play ball.

Now that you've replaced your net, you're ready play some basketball.
